

BRaCA panel

Hereditary and somatic profiling in BRCA-related cancers

4bases BRaCA panel is an **amplicon-based** kit for rapid and cost-effective identification of germline (SNVs, indels, CNVs) in **BRCA-related cancer**.

It allows the identification of mutations in BRCA1 and BRCA2 genes through **Next Generation Sequencing (NGS)**.

The kit is validated for the analysis of **DNA extracted from blood samples**.

4bases BRaCA panel allows for **precise, reliable, and effective results, speeding up** the activity of clinical reporting.

From DNA to sequencing in less than 1.5 days with less than 2 hours hands-on time.

Final Data

Straightforward protocol

Tailor-made protocol for operator's time schedule, presence of many stopping points, reduced hands-on time

Sequencing platform flexibility

Common overall protocol for different sequencing applications (Illumina, MGI, Oxford Nanopore Technologies, Ion Torrent, Element Biosciences, GeneMind)

Platform 4eVAR

Safe and secure data analysis via 4bases proprietary solution, with continuous experienced customer support

BRaCA panel

Hereditary and somatic profiling in BRCA-related cancers.

Specifications

Sample type	DNA extracted from body tissues (blood or other)
Input	Minimum of 10 ng DNA per sample
Panel size	30 kb
Gene content	BRCA1 , BRCA2 coding regions (including 25 bp proximal to the 3' and 5' end)
Variant called	SNPS, indels, CNVs
Compatible Instruments	Illumina, Oxford Nanopore Technologies → CE-IVD kit options Ion Torrent, MGI, Element Biosciences, GeneMind → only RUO
Data Analysis	4eVAR

Cod. kit

Product	Cod.	Tests number
BRaCA panel CE-IVD	H1070	16 & 96
BRaCA panel RUO	RH1070	16 & 96

4eVAR: Comprehensive output files for analysis and reporting

- Quality metrics
- Alignment
- CNVs status
- Full variant table
- Genotype
- Coverage
- Customizable report

Data Analysis

Product	Cod.	Tests number
4eVAR	A6060-H1070-16	16
4eVAR	A6060-H1070-96	96
